

Early Years Training Prospectus

100% of participants felt that the training would positively impact their work with children with a learning disability and their families.

Learner's Comment

Our vision is for the UK to be the best place in the world for people with a learning disability to live happy and healthy lives. We believe that needs to be realised from birth and that early intervention is a key way of achieving our mission.

At our unique Children's Centre we provide an early years service to support very young children with a learning disability. Our highly skilled team have now developed a range of short courses to enable early years practitioners, across Northern Ireland, to access our specialist knowledge and strategies to support.

COURSES AVAILABLE:

- OCN NI Level 2 Award in Learning Disability: positive support in the early years
- Introduction to learning disability.
- Supporting children with a learning disability in an early years setting.
- The importance of wellbeing: supporting children with a learning disability.
- Global Developmental Delay.

Excellent course, very well done.
Learned lots of things that I can use
and put in our work environment and
different strategies that can be used
to deal with different situations.
